

Corporate Screening Named To Weatherhead 100 List Of Fast-Growth Companies

Middleburg Heights, Ohio (December 4, 2007) -- Corporate Screening Services (www.CorporateScreening.com), a leading pre-employment screening and background investigations firm, has been named for the third time as a Weatherhead 100 fast-growth company in Northeast Ohio. The prestigious ranking showcases companies that have grown consistently in revenue and size over the last five years.

“It is truly an honor to be listed among our region’s top 100 companies for the third year,” said Dennis Drellishak, President of Corporate Screening. “This award is a testament to our loyal clients and our amazing team of professionals we have assembled at Corporate Screening. Our formula is simple: delineate ourselves from the competition by providing a service not a commodity, listen to our customers, exceed their business needs and continue to provide superior quality and flexibility in our service offerings.”

About Weatherhead 100

Weatherhead 100 was created in 1987 to encourage entrepreneurialism and to award companies that continuously serve as a beacon to Northeast Ohio businesses. Weatherhead was crafted in 1987 when Bob Pavey, Managing Partner of Morganthaler Partners, first noted that Northeast Ohio needed a venue to properly acknowledge, support and praise companies that were the fastest growing in the region. Pavey suggested that Enterprise Development, Inc., the former not-for-profit subsidiary of Case Western Reserve University, not only identify, but bestow a genuine sense of honor upon the fastest growing companies in Northeast Ohio. Since 2004, the Weatherhead 100 is compiled and managed by the Council of Smaller Enterprises(COSE).

About Corporate Screening

Corporate Screening (www.CorporateScreening.com) is a Cleveland-based provider of pre-employment screening and background investigations for some of the nation’s top employers. As a leading investigative consultant to human resources and corporate security professionals, Corporate Screening combines state-of-the-art data gathering technology with in-depth examination and analysis to verify information and mitigate the risks associated with hiring employees. With offices in Cleveland, Tampa and Northern California, Corporate Screening utilizes an expanding professional staff of 80 analysts and consultants to service the needs of hiring professionals representing a full spectrum of industries, with special emphasis on healthcare, financial services and manufacturing sectors.
